 Prices come from Maya's catalog, not from the Director. Nothing changes until you add it.

This suggestion is out of date. Your Scene Card changed after the Director wrote it. Ask again for fresh ideas.

The out-of-date state replaces the Add button when the Scene Card's revision moved on. It is never applied.

D • DIRECTOR UNAVAILABLE (ERROR, TIMEOUT OR TURNED OFF)

The Director can't reply right now

Your Scene Card is safe and nothing was changed. You can keep building it from Maya's catalog.

E • OUT OF DIRECTOR REPLIES (20 PER SCENE CARD)

You've used all 20 Director replies

That's the limit for one Scene Card. You can still change anything from Maya's catalog, and review and send when you're ready.
